Challenging Jobs	1
FIRST LEGO League Kickoff	2
Bailey's Corner	3
Note from Jennifer	4
Contact Information	4

Bulldog has had some different jobs lately that we had to adjust and get creative on the way we drill to get the job done. We enjoy the challenge and like to show that we can think outside the box and adapt to situations and scenarios that come our way. Our challenges took us inside a furnace, where we had to figure out how to deal with extremely high temperatures during the hottest days of the summer. As you can all imagine metal gets hot very quickly! Bulldog also encountered a situation where after much thought we came up with a way to bolt down our probe rig using a two part epoxy to complete CPT work through a single hole in 16 in. thick concrete floor.

Please keep in mind our other services

- Hollow Stem Augering (2 1/4" to 12 1/4" I.D.)
- 2" and 3" split-spoon and Shelby tube sampling
- Mud Rotary Drilling
- Wireline and Conventional Bed Rock Coring
- Monitoring Well, Vapor Well, Extraction Well & Pumping Well Installation
- Packer Testing
- Multi-Cased Monitoring Wells up to 4 Casings in the well
- CPT- Direct Push
- Piezometer Installation
- Angle Hole Auger Drilling
- Low Clearance Drilling
- Geoprobe Sampling
- Well Abandonment
- Railroad Drilling
- Test Pit Digging
- Down-hole Camera

On September 16, Bulldog Drilling was invited to be a presenter at the FIRST LEGO League Kick-Off Event. John Gates and Cody Clines graciously volunteered their time on a Saturday morning to speak to 4th-8th graders about geotechnical and environmental drilling. John also spoke about his experience with Life Well International drilling water wells in Honduras. The kids were intrigued by what we do and how fortunate we are to have clean water easily accessible to us!

# Bailey's Corner

Fall is coming and it is a sad time for me because my pool access goes away! But don't worry, I still find ways to get wet, my neighbors have lakes! I do like the cooler weather though and enjoy playing in the leaves, so I'm looking forward to that.

I have been able to come to the office a few times and enjoy chasing the rabbits in the back yard. The only problem is they can fit through the fence and I cannot, bummer! But they still keep me entertained.

Julie and I have bonded and if I use my cute eyes enough, I should have her wrapped around my paw in no time. Good thing I am cute!

And Then  
Give Him  
Only Two  
Of Them.**  
~ The Fresh Quotes ~

After a hard day at the office, I need a nap!!!

# Note from Jennifer's Desk

Some of our PVC vendors have informed us that there is a potential price increase of PVC pipe due to hurricane Harvey that hit Houston, Texas. Ethylene one of the ingredients in PVC, had 61% of the US production shut down because of the hurricane. Unfortunately, if the price increase is substantial we will have to pass along some of the increase to you our clients. We will let everyone know if and when it happens. Thank you for understanding!

**We still have openings in October and November!**

**HAPPY HALLOWEEN!**

**Thank you for taking the  
time to read the  
Bulldog Bulletin!  
We appreciate all your  
support and business.**

Bulldog Drilling offers high quality Geotechnical and Environmental drilling services to various types of clients including private individuals, Consulting Firms, State, Federal and Municipal Governments. We have the necessary equipment, trained personnel and experience to perform soil borings, soil sampling, monitoring well installation, rock coring, direct-push Sampling, and many other services in support of Geotechnical and Environmental projects. We welcome the opportunity to provide our services for both small & large projects!

- Geotechnical and Environmental Drilling, Sampling, and Monitoring Wells
- Woman-owned business
- Licensed in four Midwestern states
- More than 40 Years Combined Experience
